

Hartwood Village

Meadowcrest

Hartwood Village

Meadowcrest

SITE DEVELOPMENT PLAN

Warmth and comfort
at every moment

Hartwood Village will be built upon key concepts of connectivity, circulation, and open spaces. The intimate footprint allows for a village design centered on pedestrian mobility. Green spaces will be spread throughout the development to provide residents spaces to conjugate just a short walk from home.

Hartwood Village Masterplan Principles

Development Scale

The design encourages community building and relationships.

Circulation

Residents will find the village easy to navigate.

Security

Residents and guests will have peace of mind and will feel safe and protected.

Pedestrian Mobility

The streets and greenways will provide a pleasant and safe walking experience.

Parks and Open Spaces

The green spaces and village amenities will be easily accessible and within close proximity to the different sub-neighborhoods.

Lot Configuration

The lots are configured in a way that make it easy and convenient to build structures on them.
